

THINK6SIGMA

Improvement Through Analysis

Detailed Contents

1 INTRODUCTION

2 MINITAB BOOT CAMP

- 2.1 The Initial layout.
- 2.2 Working Alongside the Text.
- 2.3 Opening a File.
- 2.4 Importing Data from an Excel Spreadsheet.
- 2.5 Navigating within the Main Window.
- 2.6 Column Formats.
- 2.7 Sending Minitab Outputs to Microsoft Office Programs
- 2.8 Creating a Report within Minitab

3 DATA MANIPULATION

- 3.1 Introduction to Data Manipulation
- 3.2 Split a Worksheet
- 3.3 Using Recode
- 3.4 Subsetting the Worksheet
- 3.5 Extract numeric data from a cell with Date/Time format
- 3.6 Using the calculator
- 3.7 Assigning a Function
- 3.8 Setting the Decimal Places & Rounding Values
- 3.9 Deleting data
- 3.10 Conditional Formatting
- 3.11 Using the Command Line to Execute Historical Commands

4 BUILDING GRAPHS

4.1 Introduction to Building Graphs

Part 1 The Graph Builder

4.2 Introduction to the Graph Builder

4.3 Histograms with the Graph Builder

4.4 Scatterplots with the Graph Builder

4.5 Time Series Plot with the Graph Builder

4.6 Probability Plot with the Graph Builder

Part 2 Graphical Analysis with the Assistant

4.7 Introduction to Graphical Analysis with the Assistant

4.8 Main Effects Plot

4.9 Main Effects Screener

4.10 Scatterplot Screener

Part 3 Producing Graphs with the Traditional Menu's

4.11 Boxplots and the Menu System

4.12 Editing Graphs

4.13 Duplicating Graphs

4.14 The Individual Value plot

4.15 The Dot plot

4.16 The Bar Chart

4.17 Changing the Order on a Categorical Axis

4.18 The Time Series Plot

4.19 The Bubble Plot

4.20 The Pareto Plot

4.21 The Scatter plots

4.22 The Marginal Plot

4.23 The Parallel Co-ordinate Plot

Part 4 Minitab 20's New Graphs

4.24 The Heat Map

4.25 The Binned Scatter Plot

5 CORE STATISTICS

5.1 Introduction.

5.2 Types of Data

5.3 Measuring the Centre of a Data Sample

5.4 Measuring the Variation of a Data Sample

5.5 Populations and Samples

5.6 Confidence Intervals

5.7 The Normal Distribution

5.8 The Central Limit Theorem

6 AN OVERVIEW OF HYPOTHESIS TESTING

6.1 What is Hypothesis Testing.

6.2 Understanding the Procedure

7 HYPOTHESIS TESTING

7.1 Introduction to Hypothesis Testing.

Tests Comparing One Sample to a Target

7.2 1 Sample T

7.3 1 Sample StDev

7.4 1 Sample % Defective

7.5 Chi-Square Goodness of Fit

Tests Comparing Two Samples with Each Other

7.6 2 Sample T

7.7 Paired T

7.8 2 Sample StDev

Tests Capable of Comparing more than Two Samples

7.9 Chi-Square % Defective

7.10 Chi-Square Test for Association

7.11 Hypothesis Testing Exercises

8 ANOVA

8.1 Introduction to ANOVA

8.2 The theory behind ANOVA

8.3 One-Way ANOVA

8.4 StDev Test using the Assistant

8.5 ANOVA General Liner model (GLM)

8.6 GLM examples

8.7 ANOVA Exercises

9 CONTROL CHARTS

9.1 Introduction to Control Charts

9.2 False Alarms

9.3 Subgrouping

9.4 Subgroup Size and Sampling Frequency

9.5 Detection Rules used for Special Cause Variation

9.6 Control Chart Selection for Continuous Data

9.7 I-MR Chart

9.8 Xbar-R Chart

9.9 Xbar-S Chart

9.10 Control Charts for Attribute Data

9.11 Control Chart Exercise

10 PROCESS CAPABILITY

- 10.1 Simple Process Yield Metrics
- 10.2 Introduction to Process Capability
- 10.3 Basic Process Capability.
- 10.4 Z Scores
- 10.5 Sigma Shift
- 10.6 Off-Centre Distributions
- 10.7 Overall Capability and Within Capability
- 10.8 Normality
- 10.9 Summary of Process Capability
- 10.10 Process Capability for Continuous Data
- 10.11 Process Capability for Attribute Data
- 10.12 Process Capability Exercises

11 Evaluation of Measurement Systems

- 11.1 What is Measurement System Analysis (MSA)
- 11.2 Why MSA fundamental to DMAIC
- 11.3 When to Apply MSA
- 11.4 What we Cover
- 11.5 Types of Measurement Error
- 11.6 Accuracy Errors
- 11.7 Precision Errors
- 11.8 A Breakdown of Measurement Errors
- 11.9 Gage R&R Introduction
- 11.10 Gage R&R Crossed
- 11.11 Attribute Agreement Analysis within the Assistant
- 11.12 MSA Exercises

12 Regression

- 12.1 What is Regression?
- 12.2 What are we covering?
- 12.3 Simple Regression
- 12.4 Introduction to Multiple Regression
- 12.5 Multi-Collinearity and Variance Inflation Factors
- 12.6 Multiple Regression using the Assistant
- 12.7 Regression Exercises

13 Design of Experiments

- 13.1 What is Design of Experiments
- 13.2 DOE Terminology
- 13.3 The DOE flowchart in the Assistant
- 13.4 DOE Considerations
- 13.5 Sequential DOE Bacterial Growth Example
- 13.6 Sequential DOE Fuel Efficiency Example
- 13.7 Sequential DOE Exercise
